	Stability Certificate for India United Mill No.5 during the period 2024 to 2029 from Govt. approved Contractor			
	Nature of Work :			
1	Part A : For issuance stability certificate for India United Mill No. 5.			
	Part B : (1) To visit inspection after a period of year for specific purpose & giving the report there on request of mills Engineer directorater of industrial safety & health. (2) Preparation of detailed estimate of required for the structures needing repairs to be quoted as lumpsum amount in the total cost of repairs. The details scope of work & terms & condition are in the tender form.			

GENERAL TERMS AND CONDITIONS

- All the structures in the mill units shall be inspected block wise and necessary tests carried out as required for our mill situated in Mumbai. The inspection shall cover all the works of engineering, construction, such as building, tanks, scaffolding, platforms, Chimneys, bridges, walls and supporting structural work stipulated by the Chief Inspector of Factories. The tenders may visit the mill, if necessary, to access the scope of work and shall highlight the dangerous portions of the blocks from the safety point of view and suggest remedial
- The inspection shall result in submission of detailed report and measures to strengthen all the weak structures with special emphasis on prevention of collapse in the next five years. Also in the report indicative approximate estimated cost of repair for such job will have to be indicated separately against the structures which are reported to be weak and need repair. (However please note that a separate quote is being asked for toward consultation charges for preparations of detailed estimate for necessary repairs jobs to be done as indicated in the stability report).
- The inspection report shall be submitted in the triplicate for the guidance of the mill management.
- The stability certificate in required format as per factory Rules-3 A shall be prepared and submitted to the Factoring inspectorates with a copy to mills, well within the required time of 3 weeks which would be a valid for 5 years i.e. up to May 2029.
- The professional services shall include, obtaining modification of the certificate, as and when required during the next five years, if it is necessitated by any repairs or strengthening measures adopted by the mills to prevent collapse of the structure but shall not include such of modification necessitated by revision of the machinery layout or additions and alterations to structures in future.
- The structural engineer shall give the clarification that may be required by the directorate of industrial safety and health during the period of 5 year.
- The professional charges to be quoted shall be on lumpsum basis and not on the area basis.
- The structural engineer may charge visit fees for any consultation about the structural repairers etc., when called by the mills (Please see Annexure- A).
- It will be endeavor of the mill to extend full co-operation to the consultants in their work and shall try and furnish drawings, structural details etc., as far as possible. But the mill units being old structures, it may not be possible always to furnish such details. In such cases, the consultants will have to ascertain and collect such details on their own.
